Hi Rebecca,

ERT collected soil gas vapor samples in- and outdoors. we had hits in the preschool and refer it to the removal program so they can collect more indoor samples. no report yet.

Subject: Cabo Rojo status

Hi Denise,

As I recall, ERT was doing some sampling at Cabo Rojo a few months ago. I just wanted to check in on the status of that, and if there is any data in to review yet. Please let me know if you need anything from technical support in the meantime.

Thanks,
